DESCRIPTION

Elevated living in Parker, TX — an extraordinary estate in the coveted Kings Crossing enclave, where nearly 5,000 sq ft of masterfully crafted living space invites you to live larger than you ever imagined. Designed for the way real families actually live, every inch of this home has been thoughtfully curated to deliver space, serenity, and an effortless sense of belonging for those who refuse to compromise. Over \$1.3M in post-purchase upgrades transform this from a beautiful house into an unrivaled living experience. These are not surface-level updates — they are deep, meaningful enhancements to comfort, security, and livability that would cost far more to replicate today and simply cannot be found in any new construction at this price point. Experience this home for yourself. Step inside to rich wood flooring and hand-crafted cabinetry with whisper-soft close doors and drawers throughout. Every interior wall is insulated for sound, creating a hotel-like calm even when the home is full. The open layout flows effortlessly for entertaining yet offers natural pockets of privacy. A generous executive office — easily convertible back to a fourth bedroom at seller's expense — makes remote work feel like a privilege. Spa-inspired bathrooms with heated toilet seats and elevated finishes turn everyday routines into restorative rituals. A whole-home generator means you'll never lose a beat, and a storm-rated safe room plus reinforced primary suite doors deliver peace of mind that money simply cannot replace. Outside, a resort-style pool and lushly designed outdoor living areas beckon you to entertain, unwind, and make memories. Over 100 carefully chosen trees form a maturing green sanctuary that grows more beautiful — and more private — every single year. Resort style living in your very own backyard. Kings Crossing offers grand estate lots, peaceful streets, and a true neighborhood spirit. This is not just square footage; this is a life well-designed.
