## DESCRIPTION

Designed by award winning architects Mitchell and Garman, this striking modern residence features five interconnected structures arranged around a tranquil courtyard and resort style pool, creating complete privacy in the heart of Dallas. Glass corridors, a standing seam metal roof, and expansive steel framed windows bring in natural light while maintaining a strong connection between indoor and outdoor living. Sophisticated interiors include open living spaces with polished concrete floors, walnut cabinetry, custom millwork, and a sleek fireplace. The chef's kitchen offers an oversized island, Wolf appliances, a 70 bottle Sub Zero wine refrigerator, and generous seating for gathering and entertaining. The primary suite provides a peaceful retreat with garden views and spa inspired finishes, while two secondary bedrooms with ensuite baths sit on the first floor. Upstairs includes two additional bedrooms and a flexible second living area. Smart home features include a Control4 system supporting comfort, lighting, climate, and security throughout the home, while multiple outdoor living areas extend the living space into the beautifully designed grounds. A screened in patio with fireplace creates a comfortable setting for year round enjoyment, while sculptural landscaping, a water feature, and thoughtfully designed courtyard spaces create a calm Zen like atmosphere throughout the property. A three car garage and gravel drive complete this architectural masterpiece set within one of Dallas's most desirable locations.
