DESCRIPTION

Where Northwood Hills Meets Its Finest Address. Some homes are renovated. This one was reimagined. Set on a generous lot in one of Dallas's most sought-after enclaves, this five-bedroom, four-bath residence unfolds across two stories with the kind of effortless grace that only comes from truly thoughtful design. The main living areas are anchored by an open-concept layout where French doors and expansive windows blur the line between indoors and out — drawing your eye to the pool beyond and flooding every corner with natural light. Come evening, custom lighting transforms the backyard into something cinematic: the heated pool and spa glowing against the dark, the lawn lush and quiet around it. The kitchen is built for the way people actually cook and gather. A generous island anchors the space, surrounded by a KitchenAid double oven, gas cooktop, Whirlpool refrigerator, wine fridge, and microwave. It opens directly into the living room. White oak hardwood floors run throughout the main level, grounding every room with warmth and cohesion. The intelligent floor plan keeps all five bedrooms on the first floor, with a private guest suite discreetly positioned apart from the primary wing. Upstairs, a sprawling game room offers its own world — perfect for movie nights, a second lounge, or whatever life calls for. Outside, the backyard is private, polished, and genuinely usable — generous enough for lawn games, laps, and long summer evenings all at once. Quick access to LBJ Freeway, the Dallas North Tollway, and Central Expressway, with premier shopping and dining minutes away — and the acclaimed Richardson ISD anchoring it all. This is the one you come back to. There is an opportunity to replace the shelving unit with a fireplace installation. A gas line is already in place. Buyers and Buyers' agent to verify all the sqf.
