Judge Fite Company

2105 DENVER DRIVE

SOUTHLAKE, TX 76092

\$2,550,000

6,242 sqft

5 beds

5 baths

DESCRIPTION

Positioned across from protected greenspace, offering a level of privacy and openness rarely found in Southlake, creating a setting that feels secluded and expansive while remaining just minutes from everything. A home that prioritizes craftsmanship, setting, and enduring design over trends. This is not your typical luxury offering. Thoughtfully curated landscaping enhances the sense of retreat, while the architecture is defined by intention. From the outset, craftsmanship takes center stage with layered materials, timeless millwork, and architectural details that feel both refined and lasting. Vaulted ceilings, exposed beams, and brick-lined openings introduce scale while maintaining warmth and livability. The layout is both functional and intuitive, with natural light, clean sightlines, and a seamless connection between indoor and outdoor living. The kitchen anchors the home featuring a La Cornue range, while each space carries a consistent level of finish and design integrity. What sets this home apart is its balance. Architectural character without excess. Luxury without pretense. With five bedrooms, five full baths, and a well-placed pool bath, the home is designed to live as beautifully as it presents. The outdoor experience is equally considered, with over \$200,000 invested in a resort-style setting featuring a pool, water features, covered entertaining area, and mature landscaping that creates a private and relaxed environment. A putting green and multiple seating areas extend the living experience beyond the interior. Recent improvements further elevate the home, including newer HVAC systems, newer hot water heaters, a new roof, new gutters, and fresh interior and exterior paint, offering both quality and peace of mind. Located within Estes Park and zoned to Carroll ISD, this is a rare opportunity to own a home that seamlessly blends privacy, design, and convenience in one of Southlake's most desirable settings.
