DESCRIPTION

Discover 5019 Lark Lane, a six-bedroom, five-and-a-half-bath estate on a quarter-acre that blends timeless architecture with turnkey technology. A classic brick façade with black steel-framed windows, herringbone wood garage doors, and a brick walkway framed by manicured hedges sets refined curb appeal. Inside, floor-to-ceiling glass bathes the open plan in natural light, highlighting wide-plank white oak floors, designer brass lighting, and custom wall paneling—including a chic dining room with a black feature wall and sconces. The great room, anchored by exposed white oak ceiling beams, opens through a wall of multi-slide doors to the backyard. At the center, a chef's kitchen showcases a plaster-wrapped vent hood, integrated refrigeration, natural stone counters with a slab backsplash, and an oversized white oak island with dual sinks and twin dishwashers, while a walk-in butler's pantry streamlines daily living and effortless entertaining. Across both levels, restful suites and luxe baths feature marble surfaces and frameless glass showers; the serene vaulted primary retreat pairs a paneled feature wall with a spa bath offering dual vanities and a dedicated makeup station. Step outside to a true resort setting with a travertine terrace, a covered patio with a gas fireplace, ceiling heaters, and retractable shades, plus a built-in stainless outdoor kitchen. The 15,000-gallon heated and cooled pool includes a raised spa with spillover and a waterfall, complemented by a cedar pergola pavilion, a storage shed on slab, and a smart 14-zone irrigation system with integrated fertilization. This fully connected home offers whole-home automation for locks, lighting, and cameras; a Lorex 4K surveillance system; Wi-Fi-enabled appliances with extended warranties; and a 26-kWh natural-gas Generac generator with intelligent load management. Minutes to Downtown Dallas, Park Cities, and Love Field, it delivers the best of modern Dallas indoor-outdoor living.
