DESCRIPTION

Set behind the private gates of Waters Edge, this estate exists in a category rarely found where land, privacy, and construction integrity converge into something truly exceptional. Spanning nearly two acres across a rare double lot and backing to protected Corps of Engineers land, the setting offers a level of seclusion that cannot be replicated with no rear neighbors, no future development, just uninterrupted natural surroundings moments from Lake Lewisville. Crafted with an uncompromising approach to quality, the residence is engineered as much as it is designed, with extensive piers beneath both the home and pool, spray foam insulation, and materials selected for longevity as much as beauty. Every space reflects intentional design, from the architectural beam work and vaulted ceilings to the custom millwork carried throughout. The main living areas unfold with quiet sophistication and anchored by a statement great room and a kitchen appointed with custom cabinetry, an oversized island, and a full suite of professional-grade appliances. Entertaining transitions effortlessly to a lower-level game room with wet bar and serving windows, and a dedicated media retreat designed for immersive experiences. The primary suite is privately positioned with a bath that rivals a spa including a steam shower, freestanding tub, fitness room, and a boutique-style closet with integrated vanity space. Thoughtful additions including secondary living spaces, and ensuite accommodations throughout create flexibility without compromise. Outdoors, the estate transforms into a resort environment with multiple covered living areas, a fireplace lounge, built-in grilling station, and a pool with spa and waterfall, all oriented toward the uninterrupted backdrop of protected land. With capacity for five vehicles, generator readiness, and future guest house potential, this is more than a home, it is a long-term legacy property defined by privacy, scale, and enduring quality.
