## DESCRIPTION

Introducing 10066 Coppedge Lane, a thoughtfully designed custom home built by Robert Elliott Custom Homes and completed in 2021. Overall, the home was designed for entertaining in mind with its open concept layout and 14' sliding glass doors in the living room that open onto the large, covered back patio. This stunning home features white oak wood floors, level four smooth finish walls, custom cabinetry, and high-end designer fixtures and finishes. In addition, the home features large, aluminum-clad windows throughout, filling the home with abundant natural light. The gourmet kitchen is open to the main living area and includes a large 10' island, Dacor appliances, a walk-in pantry, and a butler's pantry between the kitchen and dining room. The layout of the home includes a laundry room, a large mudroom, a study, lots of storage, and a flexible bonus room located over the garage. The first-floor primary suite features a free-standing soaking tub with a large marble walk-in shower. Upstairs are three spacious guest rooms, two have vaulted ceilings, and all have ensuite baths one being a jack and jill setup. The backyard offers ample room for a future pool or room for pets or play. Ideally located within minutes to the top private schools and is zoned for the award-winning Wither's Elementary, this home truly should not be missed!
