DESCRIPTION

This is one of the most beautiful homes in Parks of Aledo and additionally, it offers a rare opportunity of being located on the quiet and peaceful greenbelt which meanders and connects the different phases of this wonderful neighborhood. The owner's exhaustive maintenance allows this house to present as if it were brand new. The intelligent design is apparent upon entry with a spacious dining room opposite a beautiful office featuring exposed wood beams and a stunning cathedral ceiling. The open concept living and kitchen design present out to the large covered patio, the backyard, and ultimately, into the serene greenbelt. The island kitchen is loaded with beautiful custom cabinetry, quartz countertops, upgraded fixtures, and a high end, stainless steel appliance package. The private primary suite, also with views of the backyard and the greenspace, includes an ensuite bathroom with his and her vanities, additional custom cabinetry, separate shower and garden tub, and an oversized walk in closet. An axis print stair runner offers both safety and class when ascending to the second level. A flexible living space at the top of the stairs could also be considered as an aggrandized foyer to the secluded media room. Two generously sized bedrooms are joined by an expansive Jack and Jill bathroom, both complete with walk in closets. Additional features include an oversized gas fireplace with decorative tile and wood mantle, natural wood beam accents in the living room, beautiful hardwood floors, an inconspicuous yet convenient half bath, a deereet utility room, expansive covered back patio, exterior lighting system...and the list goes on.
